Mediterranean style

The Gennadi Grand Resort is called to be one of the reference hotels on the Island of Rhodes.

Luminosity is the protagonist in a space dominated by neutral colors and warm environments.

Our Stromboli Light series is fully integrated into this environment of Mediterranean airs.

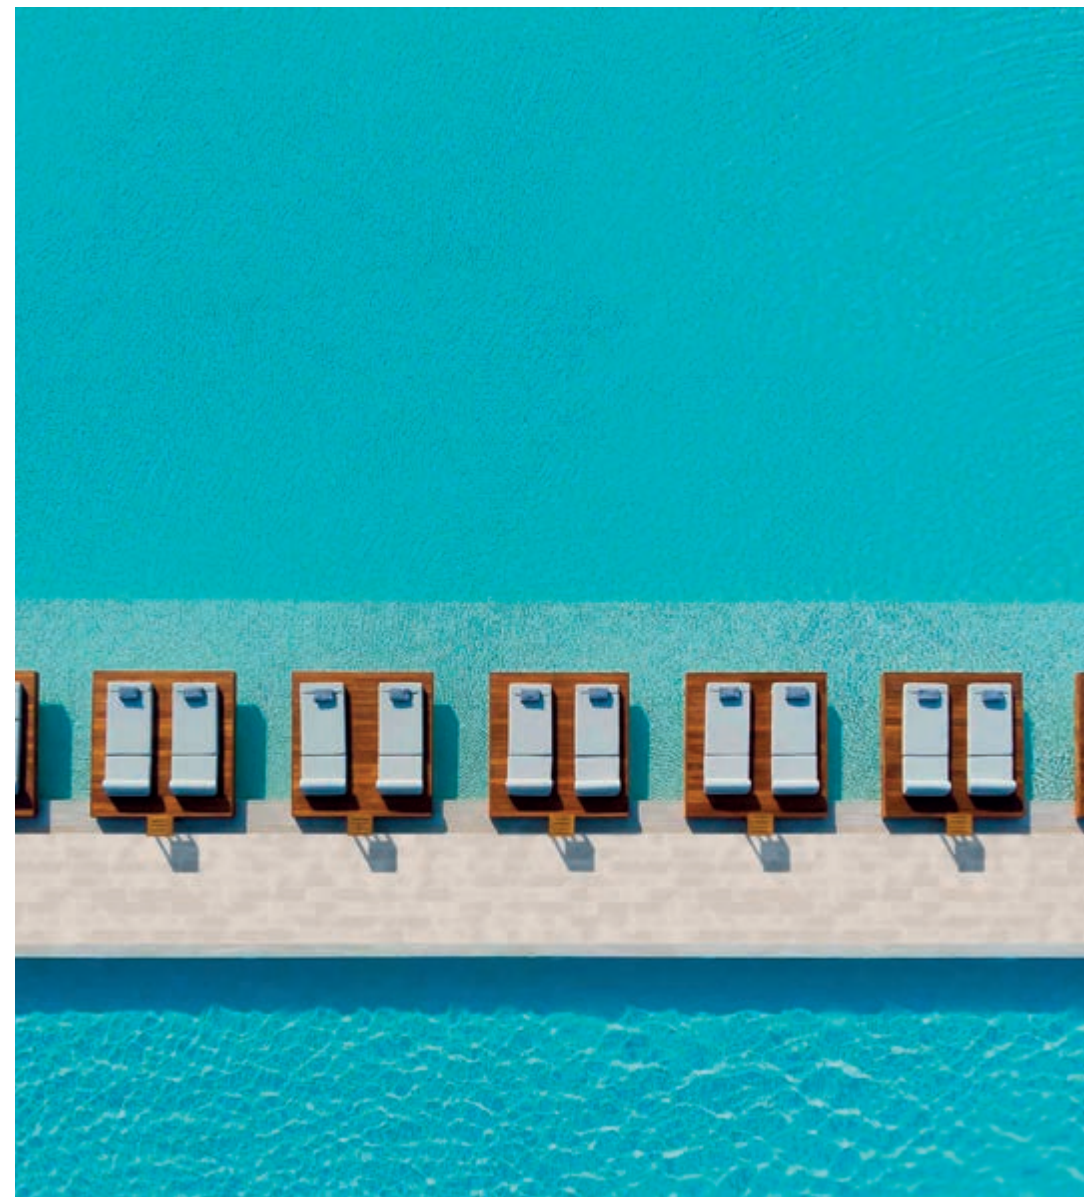

GENNADI GRAND RESORT , RHODES, GREECE.

Our Stromboli Light 60x60cm, as well as its combination with our Hawaii swimming pool crowning system and RJ67 drainage grid, generates full continuity.

Both systems have straight and simple lines, also in the same color with which we create the "integral aesthetic" effect that characterizes both our collections.

welcome to *paradise*

Overlooking Marmari, one of the most attractive locations in Kos, the five-star D 'Andrea Lagoon All-Suites in Kos brings a new insight into the island's luxury hotel scene.

Elegant and contemporary design, in a spectacular setting surrounding an immense lagoon-sized pool, and perfectly integrated with our 45x90 and 75x75 Stromboli Light.

An ideal color, in a complex for guests seeking tranquility and relaxation in an elegant setting with sophisticated on-site dining and entertainment options.

Spacious quiet areas, terraces and sun loungers, with comprehensive solutions in Stromboli light 45x90 and 75x75.

Open spaces
with different
themes, adaptable
by our diversity of
formats. Stromboli
light 45x90.

Unique places

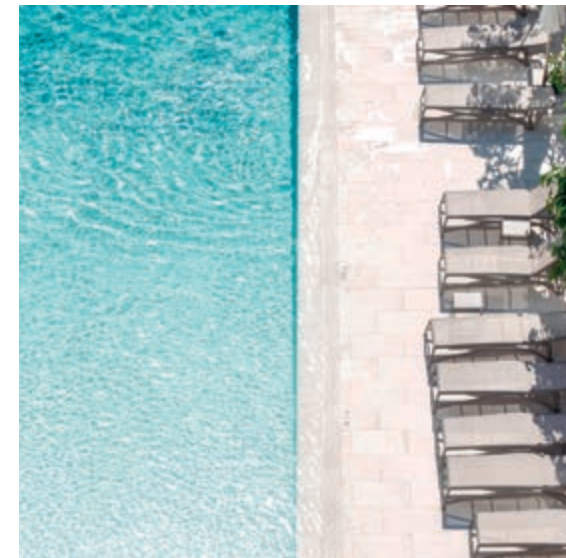

The Mauromatis homestead,
located in an incomparable
setting that makes you enjoy
great views.

CORFU ISLAND, GREECE.

Combination
with our Bora
pool crowning
system and RJ55
drain grate.

The light, protagonist.

The Hotel Presidente has recently rebuilt all its facilities and rooms to increase its category from 3 to 4 stars superior.

We take great pride in being part of this great step by fully trusting us for the renovation of your bathing area.

The Stromboli
Light change of
37.5x75, bringing
warmth and
elegance to the
environment.

Elegance, and warmth

Thanks to our
120x33 step
and the Creta
pool system with
the RJ67 grid,
the integration
between pool,
Jacuzzi, bar and
children's area is
perfect.

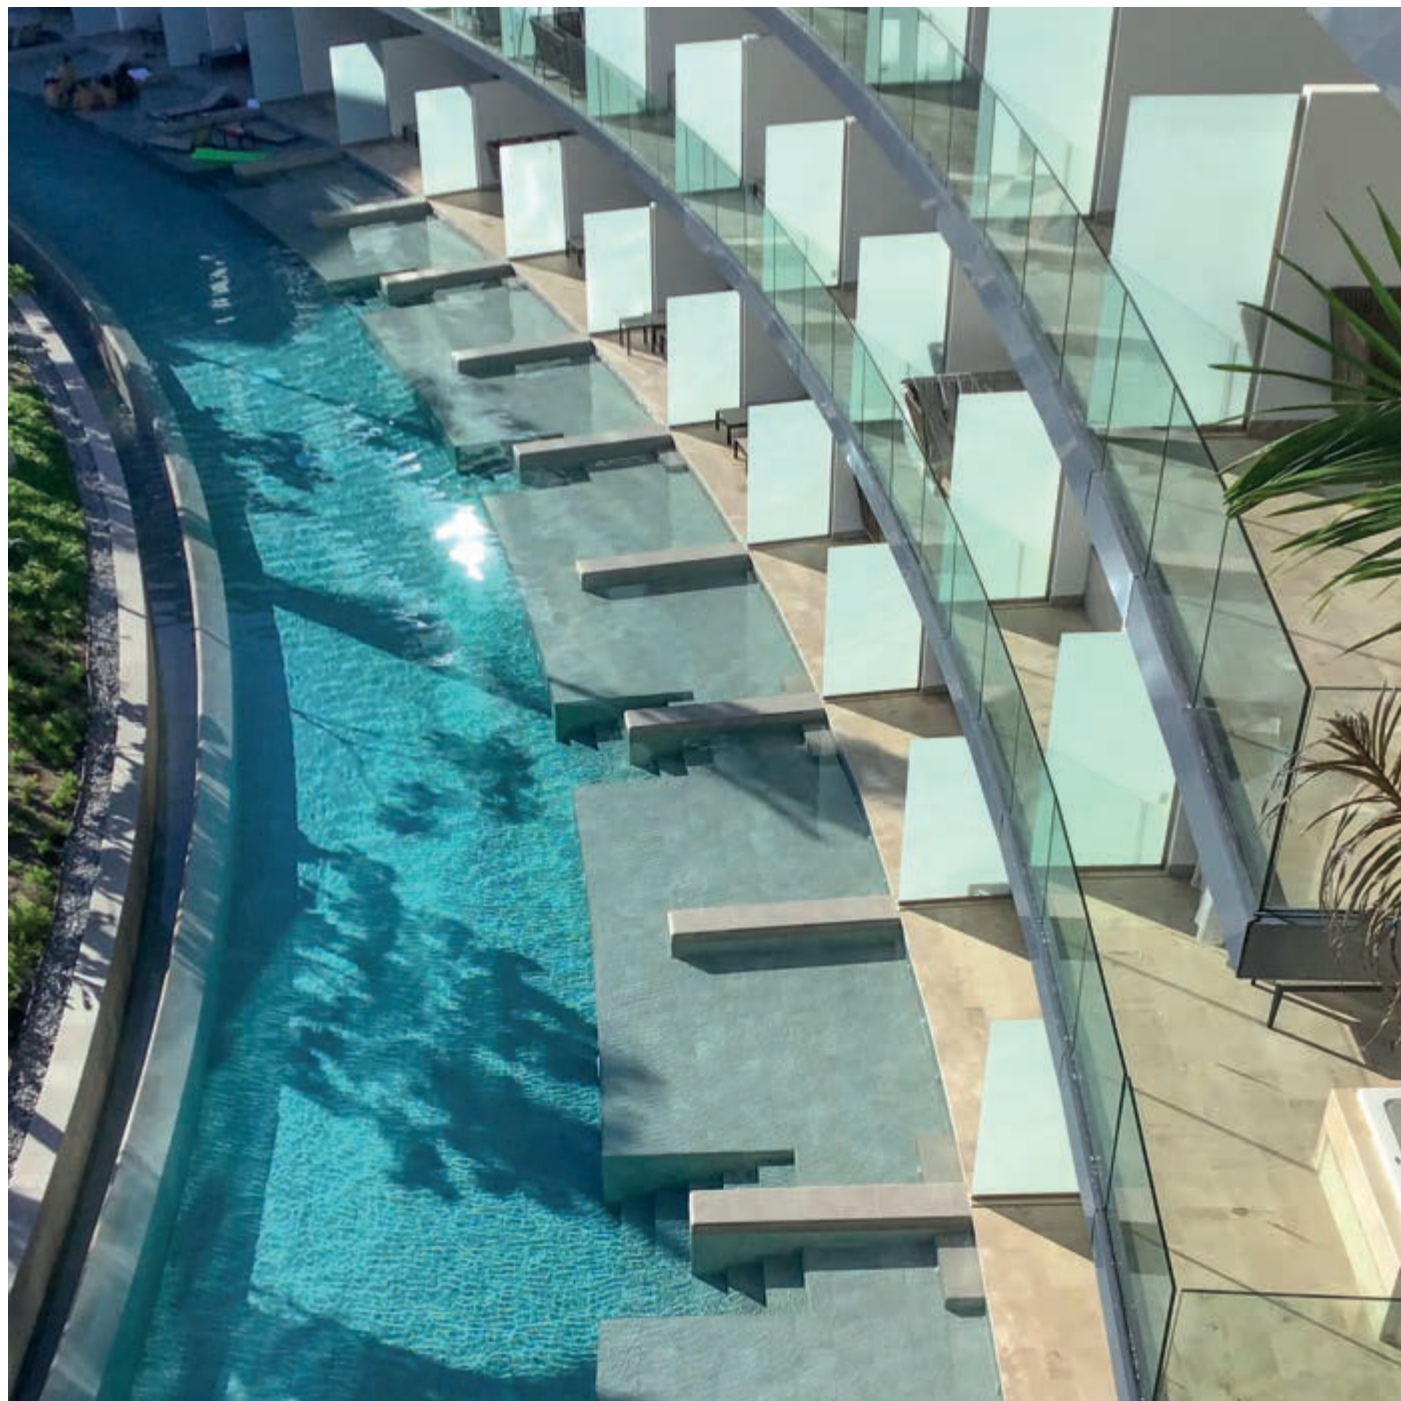

Exclusive *paradise*

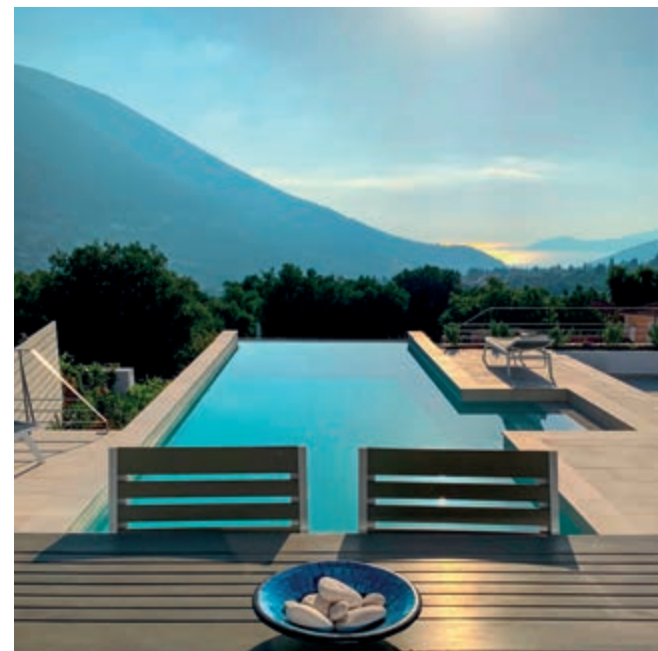

The Haven Riviera Cancun hotel is a sanctuary of luxury. Imposing emerge in Riviera, Cancun. Its design and avant-garde details place it as a reference, blending in with the surroundings with the choice of our most exclusive products.

Stromboli Silver on 30x60 and straight step generates large continuous planes, bringing light to this 5-star resort. Elimination of sharp edges thanks to our half reeds; as well as the Creta RJ67 edge and the rain gutters provide a comprehensive solution to the entire complex.

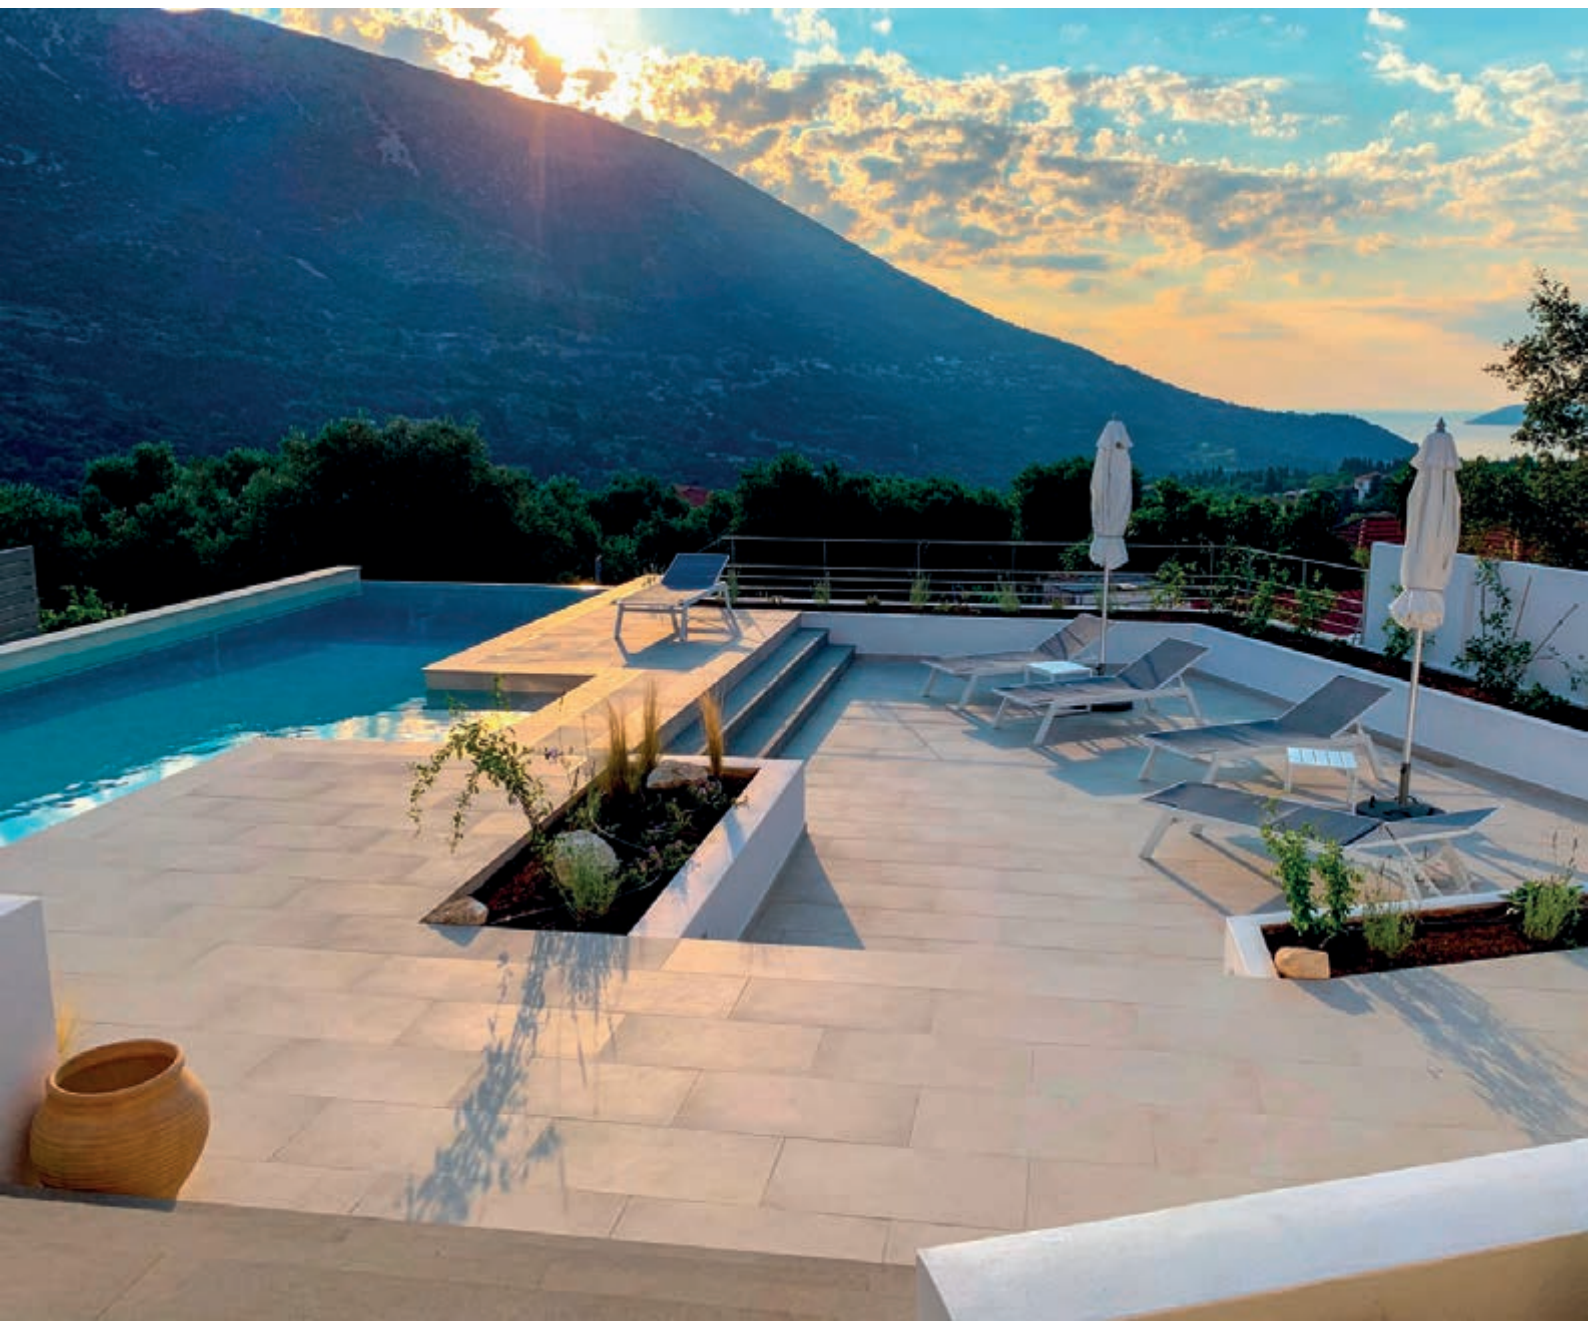

KEFALONIA, GREECE.

Sea and mountain.

Villa Portokalia is located in the mountainous valley of Kefalonia, from which we can see the Ionian Sea.

Light and silver 33x120 steps have been combined to separate rooms. With Stromboli light 37x75 base for both.

Natural harmony

From Denia we get the photos of this impressive project carried out with our pieces of Complete Rung 120x33, which, combined with the 31x83 Tile, brings uniformity to the entire surface.

The stone finish of the Sea Rock series integrates perfectly with the rustic style of the villa. The project stands out for the contrast between the stone finish of the pool and terrace and the modernity of its forms.

DENIA , SPAIN .

Versatile project

Color floods this tourist and leisure complex located on the shores of the Mediterranean.

The natural tones of the Stromboli collection and the range of green tones of the Tempio enamel palette provide color without stridency, offering a neutral touch without detracting from visual impact.

The intelligent use of our Stroboli collection in interior and exterior finishes, makes the complex's large terrace look larger when the same flooring enters the building.

PRIMAVERA PARK, BENIDORM, SPAIN.

The special pieces of our flooring system have been used to cover the wide exterior and contrast with the BO-160x50 baguette pieces, whose installation allows to create light-permeable areas. The combination of both offers interesting changes in texture in the environment.

Incredible sunsets

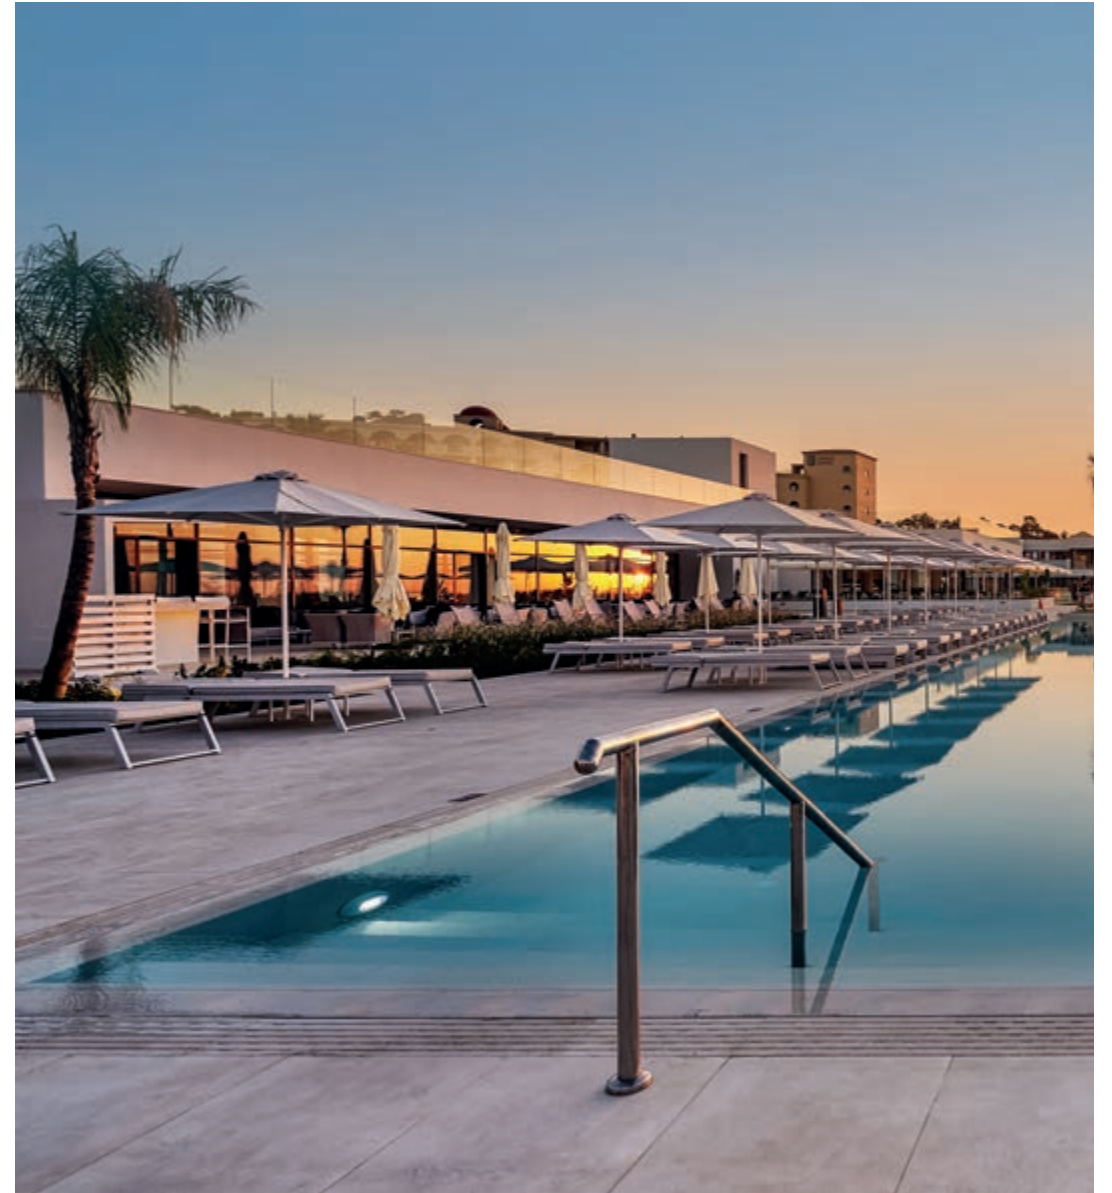

We move to dream lands, which house the Hotel Lindos. With the most privileged views in Rhodes, the resort has counted on us to cover it with the best finery.

The transit and transition areas to the large bathing area were revisited with Stromboli light 60x60.

Drainage solutions with the RJ67 next to the Hawaii edge, safe value.

Privileged places

This fantastic villa, located in a privileged enclave on the Island of Rhodes, invites us to enjoy nature with all 5 senses.

The purity of the Stromboli Light color highlights the blues that surround it. The smooth lines of our Creta system with the RJ67 grille make the feeling of uniformity and simplicity envelop the environment.

Perfect for a relaxing day in front of the sea. As a colophon for this beautiful terrace, 60x60 tiles in the same Stromboli Light color, both outside and inside the pool, so as not to break the aesthetic.

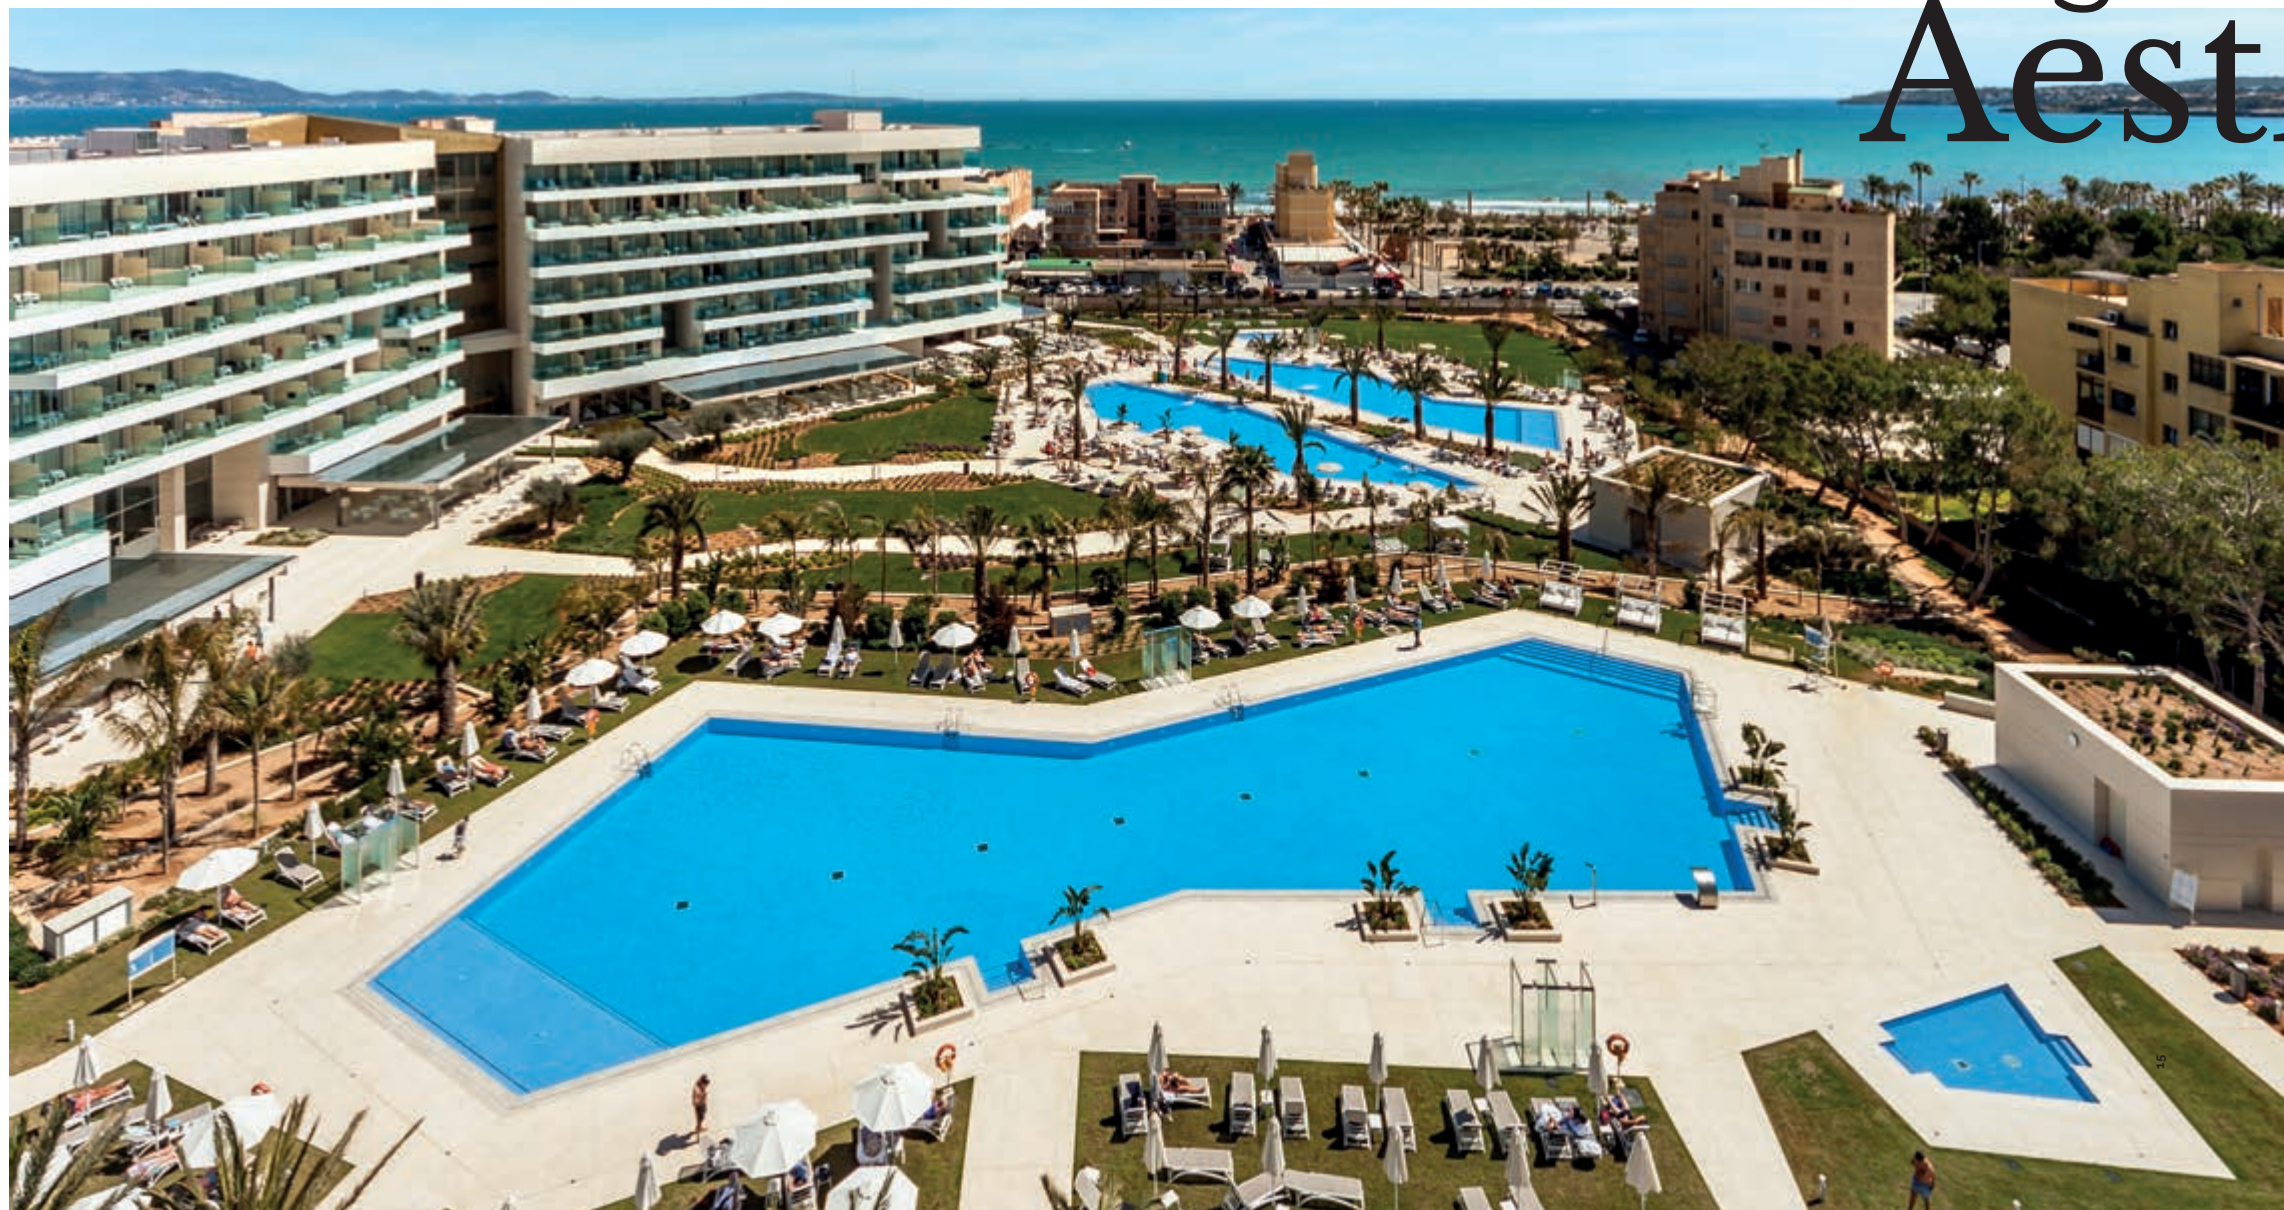

integral Aesthetics

The neutral tones and the soft texture of a natural stone make the Stromboli series very versatile and adapts to all environments.

The combination of the Hawaii crowning system and the neutrality of the Stromboli Light achieves a clean and refined finish, with straight lines and neutral tones, perfect for a modern and minimalist style such as the environment of the Gran Playa Palma.
