General information

collection	Mater
design	Patricia Urquiola, 2023
production	Industrial
material	SEGNO: Glazed and rectified porcelain stoneware UNI: Unglazed and rectified porcelain stoneware
thickness	9 mm 10,5 mm
sizes	120-120 cm (47"-47"), 60-60 cm (24"-24"), 15-60 cm (6"-24")
awards	Interior Design Magazine's Best of Year Awards 2023 in the Category Tile + Stone Flooring
specification	- 2 bases: Uni Beige, Uni Moka unglazed porcelain stoneware - 6 patterns: Segno Bianco, Segno Blu, Segno Terra glazed porcelain stoneware on Uni Beige base Segno Nero, Segno Verde, Segno Ocra glazed porcelain stoneware on Uni Moka base
category	- Uni: UNI EN 14411 App G (BIA group) UGL - Segno: UNI EN 14411 App G (BIA group) GL

Laying and maintenance tips

use	Floor, wall – indoor, outdoor.
installation	For an even, smooth shading effect when laying, alternate material from several different boxes. The double spreading technique is recommended for the 120x120 size.
recommended adhesive	Adhesive for porcelain stoneware.
recommended joints	2mm joints. Use wedges to fix the caliber differences in work size between tiles.
recommended fillers	Cement-based grout / epoxy grout. Remove all traces of grout carefully before it dries completely. Download the Grout Tables.
cleaning at the end of installation	CEMENT-BASED GROUT: Buffered acid (e.g. DETERDEK PRO by FILA, or similar). Wet the floor with water, dilute the product 1:5 with water and pour it on the floor. Wait for 2 or 3 minutes then use a white scotch Brite pad and rinse well with clean water. EPOXY GROUT: Alkaline detergent (e.g. FILA CR10 by FILA). FILA CR10: apply pure, wait for 30 minutes then use a green scotch Brite pad. SILICONE: Solvent for silicone (e.g. FILA ZERO SIL.). Pour it straight onto the stain, wait for 20 minutes and remove the mark using scotch Brite. PAINT: Can usually be removed using water, but if resin-based paints or particular enamels have been used, it is best to ask the manufacturer which solvent is most suitable. RUST: stain remover es. FILA NO RUST. Apply the product onto the stain, leave for 15 minutes, remove the residue and rinse thoroughly.
general cleaning (installed tiles)	You are recommended to use ordinary neutral detergent diluted in water. During ordinary cleaning it is recommended to use extremely abrasive items (such as scourers and iron or steel sponges) as little as possible. This recommendation must be adhered to rigorously in the case of tiles with a glossy surface finishing as they are more susceptible to the risk of scuffs, scratches and loss of shine, etc. In the event of heavy dirt or particularly textured surfaces, use an alkaline detergent and rinse after washing. For large surfaces, the use of a floor washing machine is recommended. During every-day cleaning procedures, it is necessary to remember that certain types of dirt (dust, sand) increase the abrasive effect of foot-traffic. Therefore we recommend that you avoid bringing in this type of dirt, which comes in from the outside, by placing a door-mat at the entrance.
calibers 09 (real size) thickness 9mm	120cm-120cm -> 1190mm x 1190mm 60cm-60cm -> 594mm x 594mm 15cm-60cm -> 147mm x 594mm
calibers I (real size) thickness 10,5mm	120cm-120cm -> 1196mm x 1196mm 60cm-60cm -> 597mm x 597mm 15cm-60cm -> 147,50mm x 597mm
