

KALA

KALA is born from the notion of time as both essence and form, reinterpreting the beauty of matter in its purest state.

Its stone-inspired design, shaped by the influences of Pietra Grey and limestone, is enhanced by a surface treatment inspired by traditional natural stone techniques such as bush-hammering. The result is a serene and balanced surface, where the depth of the background combines with the subtlety of delicate white veining to create a timeless aesthetic capable of integrating seamlessly into understated, elegant and enduring spaces.

Conceived to transcend styles and transform the essence of the eternal into architecture, the collection is available in three warm shades—Cloud, Sand and Umber—and in 100×275 cm, 100×180 cm, 120×120 cm, 100×100 cm and 60×120 cm formats.

The range is completed by a 60×120 cm decorative white-body wall tile, further expanding the collection's compositional possibilities for comprehensive design projects.

KALA nace de la noción del tiempo como esencia y forma, reinterpretando la belleza de la materia en su estado más puro.

Su gráfica pétrea creada a partir de las influencias de la pietra grey y la piedra limestone con un trabajo en superficie inspirado en los trabajos realizados sobre piedra natural como el "bocciardato", se traduce en una superficie , serena y equilibrada, donde se combina la profundidad del fondo con la sutileza de sus vetas blancas para construir una superficie atemporal, capaz de integrarse en espacios sobrios, elegantes y duraderos.

Una colección pensada para trascender estilos y transformar la esencia de lo eterno en arquitectura. Disponible en tres tonos cálidos —Cloud, Sand y Umber— y en formatos 100x275 cm, 100x180 cm, 120x120 cm, 100x100 cm y 60x120 cm, la gama se completa con un revestimiento decorado en pasta blanca 60x120 cm, ampliando sus posibilidades compositivas en proyectos integrales.
